Workers December 2004 • Volume 20, No. 12 • www.wwch.org

Dear Santa

Stocking stuffer suggestions for Santa's helpers everywhere.

Dear Santa,

Another Thanksgiving has passed, and we are on the verge of my favorite time of year, Christmas! While I am eagerly anticipating all the parties, food, sports, decorating, caroling, and good cheer, I'll cut to the chase: Tools..gadgets...shop stuff.

Now before you accuse me of being materialistic and greedy, I know nothing in life is free. I have held up my end of the Santa "clause" and have been very good this year. For example:

- I use my respirator, safety glasses, and hearing protection without fail while working in the shop.
- I faithfully employ featherboards and push sticks with all saws.
- I am very generous and have made numerous projects for others.
- I come in from the shop immediately the first time my spouse calls.
- I pay my WWCH dues on time.

So c'mon Santa, Tis the Season. And in consideration of shipping and handling costs these days, I'll just ask for stocking

stuffers. I have included a checklist with model numbers, ordering information, and web sites. You do have a high-speed Internet connection on the North Pole, right?

Wood Veneer Calculator, \$14.99

An elegantly styled, solar powered calculator with a lovely walnut body. Part # 59023

Rockler.com or 1.800.279.4441

Tool Saver Kit, \$19.99

The all-in-one tool maintenance kit with rust remover, protective lubricant, pitch remover, saw blade and router bit cleaner, cutting and cooling lubricant for saw blades, Dri-tool lubricant for screw and slide edge mechanisms, and router bit lubricant.

Premium Ear Muff Hearing Protection, \$22.50

Premium quality ear muffs with extra soft cushions that provide excellent hearing protection and noise reduction of 30db. Single point attachment, in combination with flexible sliders, ensure that the pressure and seal is always evenly distributed around the ears. www.cabinetmart.com/08-1301.html

JD Fastner Gauge, \$3.77

Jamestown Distributors offer a plastic combination screw gauge that measures standard or metric. Resists oil, grease, and water, Fits in a shirt pocket

Part #JD-GAUGE Jamestown Distributors, 1.800.423.0030 www.jamestowndistributors.com

3-in-1 Brass Marking Gauge, \$15.75

This elegant marking gauge is really three tools in one — a wheel gauge, a pin gauge, and a cutting gauge. The unique swivelling pin/blade chuck takes

unique swivelling pin/blade chuck takes either a pin or a blade that locks in place (after extension is set) using a set screw in the end of the 4-1/2" gauge stem. The cutting blade can be set for either right- or left-handed use. The opposite end of the stem is tapped to accept a 3/8" diameter wheel cutter. The fence and the internal portion of the locking collet are a single eccentric brass turning. The collet fingers have just enough stem friction to hold a projection setting while you lock it in place with a half turn of the knurled locking sleeve. The 1" diameter fence is eccentric to maximize rub depth.

Comes complete with a dozen spare blades, two hardened steel pins, a wheel cutter and screw, and a hex key.

Part #05N65.01 Lee Valley & Veritas, 1-800-871-8158 www.leevalley.com

Stainless Steel Canisters, \$1.60 -\$2.30

Superb canisters for storing screws, nails or small items of any kind where an

unbreakable container with a see-through top is desirable.

The lid has a clear acrylic insert for quick identification of contents (quite useful if storing the canisters in a drawer) and friction fits for a tight seal.

Made from durable 22-gauge polished stainless steel, the large canister measures about 3-3/8" tall by 2-1/4" diameter and holds 200ml (about 6.8 fl oz); the small measures about 2" tall by 2-3/8" diameter and holds 97ml (about 3.3 fl oz).

Part #45K17.63 Lee Valley & Veritas, 1-800-871-8158 www.leevalley.com

Plane Sacks, \$7.50 - \$8.95

Made from a silicone-treated knit cotton that resists moisture, these sacks are ideal for plane storage. Designed much like a tube sock with a drawstring closure, the sacks keep dust and dirt off the planes and help deter rust development. A tag on the outside of the sack lets you label the contents. Available in

four lengths: 7-1/2" for block planes, 12-1/2" for #3 to #4-1/2 smooth planes, 16" for #5 planes and the 25" for #6, #7 and #8 jointer planes.

Part #22PO1.25 Lee Valley & Veritas, 1-800-871-8158 www.leevalley.com

Japanese Nail Set, \$5.95

The unique design of this tool allows you to use it as a general-purpose 6" nail set or as a 1-1/4" nail set in tight spots. Either way, the long shank gives you excellent control. But its versatility doesn't stop there. It can also serve as a punch, a drift pin, a tack hammer, or even a small anvil for straightening nails. It is one of the classic multipurpose tools of the world. Forged steel. Part #44K13.01

Lee Valley & Veritas, 1-800-871-8158

Satrrett 1" x 16 ft. Digital Tape, \$24.99

Digital readout lets you choose feet and

www.leevalley.com

in. to fractions and centimeters. Pushbutton memory retains measurement indefinitely, even when blade is retracted. Length of case is automatically added to measurement to eliminate guesswork. Also functions as a contractor-grade manual tape. Automatic self-

calibration. Rugged high-impact case. Battery included.

Part #009393730000 www.sears.com

Sears

Craftsman Magnetic Tool Box Liner, 14.99

Craftsman logo on liner. Perforated to fit a variety of drawers. Holds tools in place and organized when opening and closing drawers Sears

Part #00965467000 www.sears.com

Voice Recording Tape Measure, 25.00

Voice recording tape measure records dimensions, project details while you work. Real estate agents, woodworkers, and weekend warriors will appreciate

the time- and memory-saving features of this ingenious recorder. No more writing details on a pad of paper, or trusting an already overloaded memory. Just press a button and record exact measurements and important details. Retrieves comments sequentially. Metal tape is 16 ft. long. Includes spring steel belt clip and carrying case. Uses 4 button cell batteries (included).

Part # 354662 Brookstone, 1-866-576-733 www.brookstone.com

Handyman In Your Pocket Reference Guide, \$12.95

Contractors, builders, handymen, and do-it-yourselfers; here's everything and anything you need to know. Want the theoretical flow rate which will cause a head loss in 100 feet of 11/4" PVC

pipe? See p. 428. Covers carpentry, electrical, math tables, glues and adhesive, paints, fasteners, HVAC, and all those other things that make your next project come together. New 2001 expanded edition; 768 pages; 3"W x 51/2"L; softbound pocket size. Printed in USA. Part # 99725

Duluth Trading Company, 1-877-382-2345 www.duluthtrading.com

Bucket Bonanza, 27.99

This combo is on his gift list, even if he doesn't realize it. The Bucket Master™ has 69 pockets to organize a shop's worth of tools (or anything else) in a systematic, visible and easy access manner. Also includes a fresh 5-gallon bucket and revolutionary leather gloves with an anatomic fit for grip and dexterity. Part #12348 Duluth Trading Company, 1-877-382-2345 www.duluthtrading.com

Renew your WWCH membership and get a lot in return. We don't want to lose you as a member so please pay your dues at the December meeting.

The Woodworkers Club of Houston values every member. You are part of a select group of woodworkers that is dedicated to expanding their knowledge and skill levels. There are many benefits to being a member including receiving a monthly newsletter. Some of the other benefits include the following:

Sure there are plenty of good woodworking schools around the country. And several of our members have

attended them. But not everyone can afford either the time or expense of these courses. For most of us the WWCH is a good alternative at a good price.

Every meeting has a "Problems and Solutions" section where members are encouraged to ask a question or two about a woodworking problem that may have them stumped. Other members will then contribute their insights and expertise.

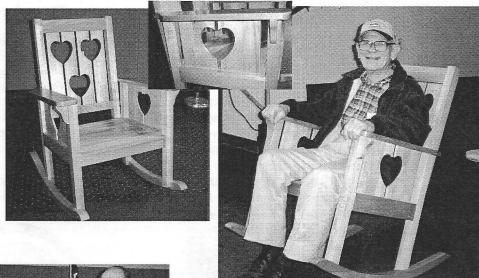

We also have a "Show and Tell" session. Members that are working on or have completed a project show us and explain how it was made and finished. Sometimes the unfinished work is more instructive than the completed work.

We will also have a monthly program presentation. This can consist of tool manufacturer's presentations, finishing demonstrations, joint making demonstrations, tool use discussions and much more. The Woodworkers Club of Houston is a great woodworking value.

If you can't join us for the December meeting please use the form on page 7 of this newsletter and mail in your dues right away. That way you won't miss any member benefits and we won't miss you!

November projects

Dan Shaklovitz
demonstrates the
proper technique
for operating this
heart rocker made
of bowling alley
maple–you can
almost hear the
pins
tumbling–from
Nagodoches.

Marcus Brun talks about this fine chessboard crafted of walnut from dumpster diving and bowling alley maple. The frame is of mahogany. The chamfer on the square tiles create a 3-D look.

Lon Kelley says that he doesn't know what to do with this wind tunnel he built, although he is an airplane enthusiast–test wooden airplanes?

Dottie Forbes crafted this music box of wood from an old demolished garage. A club member identified the wood as Piranha wood.

SmartLift DIGITAL...

THE WORLD'S FIRST DIGITAL DIRECT-DRIVE ROUTER LIFT!

- No Pulleys
- No Chains
- No Sprockets

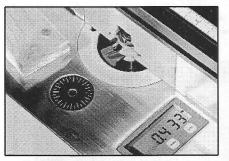

The three most common complaints with existing Router Lifts are: Backlash, the fact that moving parts are exposed to sawdust & the frustration over making bit height adjustments. That all ends now!

Introducing the SmartLift Digital from Jointech. The world's first and ONLY Digital Direct-Drive Router Lift.

The SmartLift Digital's Direct-Drive design uses a Patent Pending continuously self-adjusting anti-backlash mechanism that eliminates backlash now and forever. All of the moving parts of the SmartLift Digital's gear-to-gear-to-gear Direct-Drive system are enclosed inside of the Router Carriage Assembly thus eliminating sawdust from "gumming up the works". And with a precision Digital Absolute Encoder attached directly to the Router Carriage Assembly, every ounce of bit height adjustment is displayed in the digital display located on the lift's top plate in your choice of inches to .001" or millimeters to .01.

Imagine...No more backlash...No more gummed-up lifting mechanisms...No more guesswork when adjusting or repeating a bit height adjustment. Well, stop imagining...it's here...The SmartLift Digital. But then, what would you expect from the company that has been making precision and quality a part of woodworking for nearly 20 years? Call now to get your SmartLift Digital.

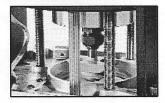

Also available without Digital Encoder.

Jack Hutchison explains the history of the Gov. Wintrop Slant Top Desk that he replicated. This period piece contains

many dovetailed joints made on a Leigh Jig. The hardware is, "Holy Shellac Batman", Chippendale batwing style. Notice the raised panel drawer bottoms and the shelf supports of sawtoothed pieces.

Rich Thomas explained how he made this box of various pieces of scrap wood using epoxy as filler -notice the end grain. The backgammon background

was needle-pointed by his Sister-In-Law while Rich made the frame of mahogany, a gift for his Brother - In - Law. The sofa table is also made of mahogany and finished with several different stains and varnish.
